

## Get the most of your DSLR with PNY Pro Elite cards

PNY CompactFlash™ Pro Elite cards are the ideal storage solution for professional and semi-professional photographers looking for reliability and high performance. With up to 32GB of capacity, PNY CompactFlash™ Pro Elite cards are the ideal solution to capture RAW & JPEG formats at the same time.

CompactFlash™ Pro Elite cards are UDMA 7 compatible which reduce the latent period in burst mode and improve transfer rates between the card and the computer.
